She Declares Jack Rose Said He Sought Rosenthal's Life.

## TESTIFIES IN MURDER TRIAL

Lillian Rosenberg, Young Widow of Lefty Louie, One of the Four Men Executed Last Month, Charges That the Former Police Lieutenant Was the Instigator of the Murder Plot-Other Witnesses Called.

New York, May 16 .- Mrs. Lillian Rosenberg, the young widow of Lefty Louie, one of the four gun men elec trocuted last month for the part they played in the murder of Herman Rosenthal, was a witness for the state at the trial of Charles Becker. the plot her husband helped to carry

In swearing she heard Jack Rose urge her husband and his three companions to kill Rosenthal because Becker wanted them to, and that she saw the quartet dividing the money they received in payment for the crime, the pretty widow of the dead gun man directly contradicted the testimony she gave at his trial and furnished what District Attorney Whitman declared to be "proof beyond all doubt" that the witnesses for the state have told the truth.

On cross-examination, the widow of Lefty Louie was asked why she had not testified at the trial of the gun men as she did today. With tears in her eyes the girl answered: "I lied then because I wanted to save the man I loved from the electric chair." Mrs. Rosenberg appeared to be on the verge of collapse. But she grasped the arms of the witness chair and quickly regained control of her emo-

counts the confession alleged to have been made by Dago Frank Cirofici, just before the gun men were electrocuted. In the confession he was quoted as saying he never heard the name of Becker mentioned in connection with the murder plot.

Mary Storer, formerly a domestic in Jack Rose's house, told of the many times both Becker and Mrs. Becker had visited the bald gambler Otto Kaversi, formerly a chauffeur, told of driving Becker to the latter's home shortly after midnight on the morning of the murder. On crossexamination Manton asked the witness whether he had driven Becker through Forty-third street while Rosenthars body was lying in front of the Metropole hotel. Kaversi denied this. An affldavit made by a By Associated Press.

## Mr. Folk and Mr. McReynolds

It is a sordid tale of frenzied finance that Charles S. Mellen, former president of the New York, New Haven and Hartford railway is telling, on the witness stand, to the Interstate Commerce Commission in regard to the business methods adopted by the management of the railroad.

Mr. Mellen is giving all the details of the transactions which resulted ultimately in selling to the public at a clear profit of over ten million dollars to the conspirators, stock And the clash of steel on steel. which he regarded, when it was secured, as worth about ten cents a pound.

To the ability, integrity and determination of Joseph W Folk, special counsel under appointment by the government to conduct the investigation, must be given the greater portion of the credit for bringing about the startling disclosures which Mr. Mellen is now making.

Mr. Folk refused to be deterred or delayed in staging the Mellen disclosures by the violent opposition of Attorney General McReynolds.

The announced determination of Mr. Folk to go ahead with the investigation regardless of the objections of Mr. McRey nolds was the cause of an open break in the professional relations of those two distinguished men.

The amazing disclosures thus far made by Mellen and the assurances which seem now to be warranted, of more to come, have demonstrated the correctness of Mr. Folk's contention and the unsoundness of Mr. McReynold's ideas.

The distinguished Missouri lawyer insisted that all the details of the outrageous stock jobbing processes resorted to by the New Haven road managers should be given to the public-McReynolds insisted that Mellen should not be allowed to tell his story on the witness stand, fearing that he would, on ace ount of so doing, claim immunity from criminal prosecution.

The New Haven investigation so far as the facts have been developed before the Commission indicates that it is another matter of great concern to the public with reference to which Mr. McReynolds is not in accord with public sentiment.

Mr. McReynolds was badly wrong, from the viewpoint of the public on the Diggs-Caminetti prosecutions in California and in that matter as well as the matter of the New Haven investigation placed the administration in a very embarassing

It was only by the insistence of Mr. Folk in the present instance and the insistence of the California Prosecutor in the former instance that public justice was not obstructed or seriously delayed by the opposition of Mr. McReynolds.

The two instances referred to and others which have not McReynolds is not in entire harmony with the present day trend of public opinion. So far his presence has been in matters of the character of the New Haven road investigation, more of a hindrance than a help to the administration in the work it is seeking to do.

The public has a deep interest in the dishonest juggling of stocks and securities by men of note in the world of high finance and the full disclosure of the details of such transactions is often of more real benefit to the public than is the quiet prosecution and punishment of a few of the guilty parties.

Mr. McReynolds does not seem to realize that knowledge Now he's got to sit down and study of the details of reprehensible New Haven stock shifting will and try to understand things.' do the public more good than the punishment of Mr. Mellen.

Mr. Folk realized that fact and acted accordingly. As a consequence Mr. Folk has grown immensely in public esteem and Mr. McReynolds has suffered a further loss of prestige.

## War With Mexico Will Divide Latin and Saxon Races In Western Hemisphere

By EMETERIO DE LA GARZA, Jr., Noted Lawyer of Mexico City

HE act of sending fifty battleships against a nation that has none is more than a precaution; it is perfectly ridiculous. Of course you will take all the ports and also all the cities, but then the war will have just begun. GUERRILLA WARFARE WILL SWALLOW YOUR TIME, YOUR MONEY, YOUR BLOOD FOR MANY YEARS TO COME.

THIS WAR WILL DIVIDE THE LATIN AND THE SAXON RACES IN THE WESTERN HEMISPHERE FOREVER. IN COLOMBIA, IN CHILE, IN ARGENTINA AND OTHER SOUTH AMERICAN COUNTRIES ONLY ONE CRY SHALL BE HEARD. "VIVA MEXICO!" YOU KNOW THE REST. ASK ROOSEVELT. THE BELLICOSE ATTITUDE YOU HAVE ASSUMED TOWARD MEXICO WILL WEAKEN YOUR POSITION IN BOTH EUROPE

The government against which you are carrying on this war is not responsible for the loss or destruction of a single American life or of property. Have you stopped to think that all the murders about which you ain HAVE BEEN COMMITTED IN THE REBELS' CAMPS, HAVE BEEN SANCTIONED BY THE REBELS' LEADERS, who, paradoxical as it may seem, have attained greater estimation in the eyes of the American government?

## Poetry For Today

THE LAND OF PLENTY TIME

Ho, the Land of Plenty Time! Tis a realm of lilting rhyme; 'Tis a place of peace and plenty In a soft and sunny clime.

There the sunlight ever gleams, And the lily scent of dreams Gives a hint of bud and blossom By the marge of shining streams,

There the golden rivers run Unperplexed beneath the sun. And the afternoon is always, And the day is never done.

In the Land of Plenty Time There is neither care nor crime, But the bells of joyance tinkle In a mild and merry chime.

'Tis a land of dancing feet That have never known retreat: 'Tis a clime of song and laughter. Wherein every sound is sweet.

'Tis the home of hearts that feel Love's unselfish common weal, And it never knows the clamor

There the verdant pines and palms Wave in never-broken calms. And the airs of summer Southland Sing to them in endless psalms.

Ah, this land we may not know Any more, alas! for, oh,

Love, the Land of Plenty Time Is the Land of Long ago! -St. Louis Republic.

Youth Arrested at Chicago Calmly Confesses to the Murder of His Employers in Lawrence County, Ohio-Aged Woman, Daughter and Son the Victims of a Farm Laborer-Latest Disclosures.

ley Beard, 19, that he killed three the property persons on a farm near Ironton Wednesday, Sheriff Sloan left here to take the man into custody on a charge of murder.

The slain people are: Mrs. Nancy A. Massie, 78; her daughter, Mary, 47, and son, Robert, 49. All are prominently connected here. W. E Massie, another son, is deputy tax commissioner.

The confessed murderer was an em ploye on the Massie farm. He was an orphan and had worked for the

Feeling runs so high here authorities are taking precautions to prevent violence when Sheriff Sloan returns with his prisoner. Well-known citizens, friends of the Massie family openly have made threats against the murderer

is so intense that it dries the blood ing real hardship in the quest for miles and miles of alkaline deposits tion of affairs has been presented to to feast the eyes on, is to be built a the city council and a proposal made group of homes. The material is to lower the taxes on houses whose the New York Sun. The latter part tion was shelved it is not improbable of next year the houses will be fin- that something may be done in this

There will be about 100, maybe more, accommodating the families of several hundred workmen who are to rob the borax flats at the lower end of Death Valley in southern California of their mineral treasures. Be-

Connecting the colony with the rest of the world will be a railroad that will run from the dread valley down to Searles, a station on the son. "Times was when all he had to Southern Pacific, a distance of nearly do was to shake hands, send around 40 miles. The homes cost about \$3,-

The colony will be the largest industrial settlement that has ever been planned in this country; maybe it is the largest that has ever been thought of in any country. At any "How's your arm?" inquired the rate there is no settlement that will manager of the pitcher, who had just have the setting that it will have Nowhere east of the Sahara Desert will one find such colorings as in the "great salt wells" off in a corner of Death Valley

### Site Once Sea.

The site of this colony was once a great sea. It covered a great area of southern California. Centuries and centuries ago it dried up, leaving a crust undermined with brine. crust extended up to the Slate Mourtains on the east and Argus Mountains on the west 600 feet, which seems to indicate the level of this prehistoric sea. The floor on which the colony will be built has an area of 200 square miles of dazzling white. If the valley were in a cold zone it might be taken for snow. In some places this crust is 12 feet thick, in other places only a few inches.

The heat of the sun and the moisture thrown off by the damp surface form a mist that is bewildering to the traveler. Many have lost direction as a consequence, and weakened by the heat of the sun and scarcity of water, have collapsed and died. The bleached bones of men who failed may be found on the great white surface. Horses crossing the crust have broken through and been ing and writing, and all that, I un- unable to recover. Often the beast had to be shot out of mercy, because

of the great suffering from the brine which eats through to the bone. othing grows there and nothing ives there but buzards, vultures, norned toads and the like. Only at ight will they be encountered.

Breezes Are Unknown. Breezes that float across the counry never get into the valley. For hat reason there is always a stupefying heat there. through Death Valley and the "Borax Flats," where the colony is to be built is said to be so hot that the moisture in one's body dries out, making the blood thick. The only water to be had is in the brine.

Such is the place where several hundred men, women and children will make their homes. They will stay with miles and miles between hem and the rest of the world. Through Death Valley and the "Dry Salt Wells" country there are few

American enterprise is going to change all this. The colony that is o be built in the valley will be made just as pleasant as any fertile valley of the state. The climate is to be robbed of its terrors. Even gardens are to be provided in this barren land

The American Trona Company, an adjunct of the American Goldfields Company, has learned that there is much potash, a product we now get from Germany, is in the valley, and they are going to get it out. Labor is required and as the labor market is far from the scene of operations Ironton, O., May 16 .- Following the the company has decided to build confession to Chicago police of Har- model houses for their workmen on

### Science Called to Aid.

Knowing the severity of the climate and melancholy surroundings they are to spend much money in making conditions as ideal as money and science can make them.

The houses will be of concrete throughout; not a stick of wood in their construction. This is no matter of fire protection. There is no water in the valley and to build the plant of timber would mean total destruction in time of fire. The hundred houses will be built around a great interior court-yard. In other words, the houses will be built in the form of an immense concrete square.

By Associated Press

Vienna, May 16 .- The refusal of landlords in Vienna to rent flats to persons with children has become positors. the most desolate spots such an obstacle to families of the in one's veins, with nothing but suitable living quarters. Mr. Westgard has done more than any other man to make inter-state touring possible. His work during the past ten years as a pathfinder has made him famous from one end of the country to the other. He has crossed the continent in an automobile nine times from east to west, and five times from north to south, always striving to find the best routes between cities. Altogether he has driven about a quarter of a million

When in the field Mr. Westgard always has his note book before him. His notes contain a great variety of information - Compass directions, figures of altitude and mileage, topography, the proximity of road building materials, climate and soil conditions, the nature of crops and vegetation, and the Good Roads sentiment of the communities through which he passes.

## FRATERNAL ORDER OF EAGLES

In memory of Brother George Giebelhouse who died May 12th, 1914. ## PARKS EXECUTION HFID HOSTIIF ACT

Mexican Peace Delegates Merely Want a Brief Respite.

## SPANISH AMBASSADOR TALKS

Prove To Be Mexicans and Are Released.

Washington, May 16. - Postponement of the Niagara Falls Mexican mediation conference from next Monday to the following Wednesday at cans will return to the light. the request of the Huerta delegates changed the plans of the South American mediators and the American commissioners for departure and prolation as to possible significance in cans had turned out to be Mexicans, duced, at the same time, much specu-

Later the Spanish ambassador here, who is caring for the interests of Mexico in the United States, authorized the statement that the two-day delay meant merely that the Huerta delegates wanted a brief respite from their long journey, and had no politi. ment. cal importance.

The Spanish ambassador will give the Mexicans a dinner here tonight, after which they will proceed to N' agara Falls. The three South Ameri can diploma's and American commissioners will deave Sunday or Monday and all will assemble on Wednesday.

There were many developments in the day clearing the horizon for mediation, but one smister aspect developed in the sending of a strong note of protest by the United States government to General Huerta, through the Brazilian minister in Mexico City, declaring the reported execution of Private Parka, an American infantryman, a hostile act in view of the suspension of hostilities at Vera Cruz.

Execution of Parks.

The refusal to divulge information about Parks in answer to repeated requests also was resented by the American government, and, while there is no intimation as to what the course of the United States will be. alleged to have been committed by the Huerta administration, the Parks incident will have t prominent part.

Funston, apparently was insane, vol-

States contends he should have been treated as a prisoner of war and not executed as a spy.

The burning of his body, which is indicated in t report from- General Funston, as well as stories reaching the Brazilian legation in Mexico City, is held by the United States to be contrary to the rules of civilized war-

The three mediators, through the state department, announced that the Reported Execution of Private Parks, Lobos Island incident had been Held a Hostile Act in View of the cleared up. They did not say directly Suspension of Hostilities at Vera what word they had received from Cruz-Snipers Held by Funston General Huerta, but, they have informed him that the Mexicans were free to return to the Lobos Island lighthouse whenever they chose, provided they maintlined it for the world's navigation. The mediators say it is a closed incident and state de partment officials believe the Mexi-

Snipers Released.

Announcement was made at the war department that the five alleged South American snipers under arrest in Vera Cruz for firing upon Ameriand, like the others arrested at Vera Cruz on this charge, had been discharged. This had threatened for a time to involve the South American governments, but it appears now the arrested men said they were South Americans merely to escape punish

On the whole, President Wilson and his cabinet took a more hopeful view of the entire Mexican situation than they had in many weeks. They are confident that mediation will accomplish something toward the pacific settlement of the Mexican problem. The capture of Tampico by the Constitutionalists brought out the fact that at present there is no prohibition against the shipment of arms into that port from the United States

Juarez, May 16. After skirmishing for four days the rebel attack on Saltillo was begun by General Villa's it is practically certain that when the army. Accounts of the fighting have final reckoning is made for offenses been received by rebel authorities in Juarez. According to these reports Villa placed his artillery in position Thursday night and at daybreak Fri Parks, who, according to General day the rebel batteries commenced shelling the federal positions at long untarily rode into the Mexican lines. range. Villa now has his entire command, estimated at 25,000 men, dis posed before Saltillo.

Rebels in Juarez believe Saltille will be in rebel hands within 24 hours. It is claimed that while the federals are making a show of re sioner James R. Marker for the paysistance, the greater portion of the ing of the National Pike with brick of federal force is ready to join the rebels and will force the surrender of city. The federals are supposed to have more than 10,000 men in Sal tillo and the city has been well fortified.

Chicago, May 15. - Mrs. George Post was killed and three persons were injured, one seriously, when an automobile in which they were riding turned turtle near Chicago Heights. Otto Yeager, a teaming contractor and owner of the car, suffered a broken shoulder. The dead woman's husband identified the body at the morgue. He knew nothing about his wife's trip or the men she was with.

## Fifteen Millions to Be Spent By State and Counties.

Columbus, O., May 16.-No bids were received by Highway Commisthat portion of the road in Richland. Union and Kirkwood townships of Belmont county, a distance of 16.62 miles, the estimated cost of which is \$422,955.74, which, with the other two sections of the road in the same county, made the total contract go over \$619,000, the largest single road improvement jobs ever offered in Ohio. Assurances have been given that a bid within the estimate will be given when the letting is again made on

For paving the road a distance of 3.61 miles hide ware received within ald.

the estimate on widths of 16 feet: 21 feet and 4 inches, and on width of 24 feet, the lowest bids being respectively: \$85,951, \$111,730 and \$123,960. For making the roadway a distance of 4.20 miles, the contract for brick was let at \$103,785

The two roads advertised for in Crawford county were n. 1 let, the bids being withheld be are the character of improvement is to be changed to brick instead of water bound macadam, and the county will increase its road program to approximately \$100,000 instead of \$18,000, at which the jobs were estimated.

Contracts entailing over a million dollars will soon be in force for reconstructing the old National road in Ohio. The highway commissioner estimates that no less than \$15,000,000 will be spent by the state and various counties in Ohio for road improvements this year, the state alone spending approximately six millions on highways that are to receive state

## AGRICULTURAL LAND

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acre each to be granted to prospective settlers in throwing open Twenty Thousand Acres of rich, Southern Georgia Land, which is admirably adapted to the growing of celery, sweet, and Irish Potatoes, canteloupes, water melons, corn oats, cotton, hay—in fact all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the famous immensely profitable paper-shell

Providing you are eligible under the classications prescribed by us you are now offered an excellent opportunity to break away from the drudgery and toil of a suall wage, or working for the benefit of landlords, and go back to a land of plenty to which, if granted, you will hold a warranty deed and abstract.

The best security on earth is the earth itself, and land is the basis of all wealth. Owners of productive lands are benefitting by the increasing high cost of living, while others are suffering from it.

## An Opportunity to Secure Rich Productive Land Without Capital

You will not be required to leave your present surroundings now. All we ask of those to whom we grant tracts is that they plant, or avange to have planted, a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for granters, in consideration of 25 per cent of the net profits derived from the sale of the crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just what the yield of their acres amounts to. Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to \$1,268.45, and that one acre of well-cared for paper shell pecars in full bearing should net its owner as high as \$500,00 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further urging, and waste no time in locating in this land of plenty. We also require grantees to occupy the land within ten years, or sell it to some one who will occupy it; otherwise it reverts back to the grantor. otherwise it reverts back to the grantor.

The land included in this opening is located directly on and adjoining the Atlanta. Birmingham and Atlantic Railroad, about twenty-five miles west of Brunswick, a thriving city of fifteen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the year, from April to October, is 77 degrees; the climate is most healthful, delightful and invigorating, and there is an ample rainfall of 51 inches per year.

### Our Aim is For Mutually Beneficial Results

As we are extremely desirous of having settlers locate on reached and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta, Birmingham and Atlanta Railroad, and thus facilitate the service, we feel warranted in granting these tracis to those who register with ns We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have "money-making afterward" considerations in this liberal-minded opening similar to those of the Northin this liberal-minded opening similar to those of the Northern Pacine and other railroads when they granted their lands and we expect to benefit thereby as well as the ones who will receive the tracts.

We have also planned to develop what is designed to be the best equipped, most-up-to-date, scientific, commercial farm and orchard in existence. It will consist of six thousand acres, and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue thereon. While we are arranging to prevent over-registration we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who register in excess of the number of tracts to be granted an interest in this commercial farm and orchard enterprise, in the hope that they may later locate in one of our town sites.

Examination of the land will cheerfully be permitted and the opening will be held at Browntown, Wayne County, Georgia, one of the stations of the A, B & A. Railroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made.

The presence of those registered will not be necessary at Browntown on the opening day, unless they wish to attendfor there will be no favoritism shown anyone. It will be conducted by a committee selected for the purpose, and those
registered will be notified of what they have been granted as

With the ever increasing population of this country there is no corresponding increase of the area of land, and naturally as the population increases and seeks the land in pursuit of health, happiness and independence, it will continue to be harder to secure.

The prosperous and contented class in Europe today are the descendants of those who secured land there when it was plentiful while the descendants of those who obtained no land are now the peasants and slaves. You must realize that this may be your last chance to secure land in this country without a large outlay of capital, so it should not be necessary to urge you to act at once by forwarding us the applica, tion for registration attached to this announcement.

Congress thought Why not give the old farm home a that a coin of the same weight and size as the Mexican dollar, with the imprint of the United States, could be used with advantage.

During the five years beginning with 1873, the United States mint produced nearly 36,000,000 of these dollars. Most of them were exported, but enough of them remained in our own country to lead to some confusion by reason of their similarity to the standard silver dollar, In 1887 Congress provided that for six months thereafter all trade dollars presented at the treasury should be exchanged for standard silver dollars. After that time trade dollars were to be worth only their metal value. Nearly 8,000,000 were redeemed, and when the period for redemption came to an end probably less than 1 per cent of the number that had been coined remained in this The trade dollars show on one side

a sitting figure of the Goddess of Liberty, and on the other an eagle of a different design from that on the standard dollar. The inscription is United States of America, Trade Dollar, 420 grains, 900 fine." The standard silver dollar weight 412 1/2 grains. The weight of the Mexican dollar is 417.74 grains, but it is 90.27 per cent pure silver, so that although it weighs less, its metal value is about the same as that of the old trade dollar .- Youth's Com-

## Mr. Folk and Mr. McReynolds

It is a sordid tale of frenzied finance that Charles S. Mellen. former president of the New York, New Haven and Hartford railway is telling, on the witness stand, to the Interstate Commerce Commission in regard to the business methods adopted by the management of the railroad.

Mr. Mellen is giving all the details of the transactions which resulted ultimately in selling to the public at a clear profit of over ten million dollars to the conspirators, stock which he regarded, when it was secured, as worth about ten cents a pound.

To the ability, integrity and determination of Joseph W. Folk, special counsel under appointment by the government to conduct the investigation, must be given the greater portion of Ah, this land we may not know the credit for bringing about the startling disclosures which Mr. Mellen is now making.

Mr. Folk refused to be deterred or delayed in staging the Mellen disclosures by the violent opposition of Attorney General McReynolds.

The announced determination of Mr. Folk to go ahead with the investigation regardless of the objections of Mr. McReynolds was the cause of an open break in the professional relations of those two distinguished men.

The amazing disclosures thus far made by Mellen and the assurances which seem now to be warranted, of more to come, have demonstrated the correctness of Mr. Folk's contention and the unsoundness of Mr. McReynold's ideas.

The distinguished Missouri lawyer insisted that all the details of the outrageous stock jobbing processes resorted to by the New Haven road managers should be given to the public-McReynolds insisted that Mellen should not be allowed to tell his story on the witness stand, fearing that he would, on ace ount of so doing, claim immunity from criminal prosecution.

The New Haven investigation so far as the facts have been developed before the Commission indicates that it is another matter of great concern to the public with reference to which Mr. McReynolds is not in accord with public sentiment.

Mr. McReynolds was badly wrong, from the viewpoint of the public on the Diggs-Caminetti prosecutions in California and in that matter as well as the matter of the New Haven investigation placed the administration in a very embarassing position.

It was only by the insistence of Mr. Folk in the present instance and the insistence of the California Prosecutor in the former instance that public justice was not obstructed or seriously delayed by the opposition of Mr. McReynolds.

The two instances referred to and others which have not been accorded such wide publicity indicate strongly that Mr. McReynolds is not in entire harmony with the present day trend of public opinion. So far his presence has been in matters of the character of the New Haven road investigation, more of a hindrance than a help to the administration in the work it is seeking to do.

The public has a deep interest in the dishonest juggling of stocks and securities by men of note in the world of high finance and the full disclosure of the details of such transactions is often of more real benefit to the public than is the quiet do was to shake hands, send around 40 miles. The homes cost about \$3,prosecution and punishment of a few of the guilty parties.

Mr. McReynolds does not seem to realize that knowledge Now he's got to sit down and study of the details of reprehensible New Haven stock shifting will and try to understand things." do the public more good than the punishment of Mr. Mellen.

Mr. Folk realized that fact and acted accordingly. As a consequence Mr. Folk has grown immensely in public esteem and Mr. McReynolds has suffered a further loss of prestige.

## War With Mexico Will Divide Latin and Saxon Races In Western Hemisphere

By EMETERIO DE LA GARZA, Jr., Noted Lawyer of Mexico City

HE act of sending fifty battleships against a nation that has none is more than a precaution; it is perfectly ridiculous. Of course you will take all the ports and also all the cities, but then the war will have just begun. GUERRILLA WARFARE WILL SWALLOW YOUR TIME, YOUR MONEY, YOUR BLOOD FOR MANY YEARS TO COME.

THIS WAR WILL DIVIDE THE LATIN AND THE SAXON RACES IN THE WESTERN HEMISPHERE FOREVER. IN COLOMBIA, IN CHILE, IN ARGENTINA AND OTHER SOUTH AMERICAN COUNTRIES ONLY ONE CRY SHALL BE HEARD, "VIVA MEXICO!" YOU KNOW THE REST. ASK ROOSEVELT. THE BELLICOSE ATTITUDE YOU HAVE ASSUMED TOWARD MEXICO WILL WEAKEN YOUR POSITION IN BOTH EUROPE AND ASIA.

The government against which you are carrying on this war is not responsible for the loss or destruction of a single American life or of property. Have you stopped to think that all the murders about which you complain HAVE BEEN COMMITTED IN THE REBELS' CAMPS, HAVE BEEN SANCTIONED BY THE REBELS' LEADERS, who, paradoxical as it may seem, have attained greater estimation in the eyes of the American government?

## Poetry For Today

THE LAND OF PLENTY TIME

io, the Land of Plenty Time! Tis a realm of lilting rhyme; 'Tis a place of peace and plenty In a soft and sunny clime.

There the sunlight ever gleams, And the lily scent of dreams Gives a hint of bud and blossom By the marge of shining streams,

There the golden rivers run Unperplexed beneath the sun. And the afternoon is always. And the day is never done.

In the Land of Plenty Time There is neither care nor crime, But the bells of joyance tinkle In a mild and merry chime.

Tis a land of dancing feet That have never known retreat; Tis a clime of song and laughter, Wherein every sound is sweet.

'Tis the home of hearts that feel Love's unselfish common weal And it never knows the clamor And the clash of steel on steel.

There the verdant pines and palms Wave in never-broken calms, And the airs of summer Southland Sing to them in endless psalms.

Any more, alas! for, oh, Love, the Land of Plenty Time Is the Land of Long ago!

-St. Louis Republic

Washington, May 16,-Ohio-Fair Saturday and probably Sunday; ight variable winds.

West Virginia-Fair Saturday and family since last fall, probably Sunday.

Indiana-Fair Saturday; warmer north portion; Sunday increasing cloudiness, light to moderate variable winds.

Feeling runs so high here authorities are taking precautions to prevent violence when Sheriff Sloan returns with his prisoner. Well-known citizens, friends of the Massie family, openly have made threats against the murderer

more accommodating the families of several hundred workmen who are to rob the borax flats at the lower end come. of Death Valley in southern California of their mineral treasures. Be-

Connecting the colony with the rest of the world will be a railroad that will run from the dread valley down to Searles, a station on the son. "Times was when all he had to Southern Pacific, a distance of nearly 000,000.

The colony will be the largest industrial settlement that has ever been planned in this country; maybe, it is the largest that has ever been thought of in any country. At any rate there is no settlement that will Nowhere east of the Sahara Desert will one find such colorings as in the "great salt wells" off in a corner of Death Valley.

Site Once Sea.

The site of this colony was once a great sea. It covered a great area of southern California. Centuries and centuries ago it dried up, leaving a crust undermined with brine. crust extended up to the Slate Mounains on the east and Argus Mountains on the west 600 feet, which seems to indicate the level of this prehistoric sea. The floor on which the colony will be built has an area of 200 square miles of dazzling white. f the valley were in a cold zone it might be taken for snow. In some places this crust is 12 feet thick, in other places only a few inches.

The heat of the sun and the moisture thrown off by the damp surface form a mist that is bewildering to the traveler. Many have lost direction as a consequence, and weakened by the heat of the sun and scarcity of water, have collapsed and had died. The bleached bones of men who failed may be found on the great white surface. Horses crossing the Ethel-Oh, the wretch stopped call-crust have broken through and been ng and writing, and all that, I un- unable to recover. Often the beast had to be shot out of mercy, because agitators blows over.

of the great suffering from the brine which eats through to the bone. Nothing grows there and nothing lives there but buzards, vultures, horned toads and the like. Only at night will they be encountered.

Breezes Are Unknown.

Breezes that float across the counry never get into the valley. For hat reason there is always a stupefy-The atmosphere through Death Valley and the "Borax Flats," where the colony is to be built is said to be so hot that the moisture in one's body dries out, making the blood thick. The only

Such is the place where several hundred men, women and children will make their homes. They will stay with miles and miles between them and the rest of the world. Through Death Valley and the "Dry Salt Wells" country there are few

American enterprise is going to change all this. The colony that is be built in the valley will be made just as pleasant as any fertile valley of the state. The climate is to be robbed of its terrors. Even gardens are to be provided in this barren land

The American Trona Company, an adjunct of the American Goldfields Company, has learned that there is much potash, a product we now get from Germany, is in the valley, and they are going to get it out. Labor is required and as the labor market is far from the scene of operations Ironton, O., May 16.-Following the the company has decided to build confession to Chicago police of Har- model houses for their workmen on

> Science Called to Aid. Knowing the severity of the cli-

mate and melancholy surroundings they are to spend much money in making conditions as ideal as money and science can make them.

The houses will be of concrete throughout; not a stick of wood in their construction. This is no matter of fire protection. There is no water in the valley and to build the plant of timber would mean total destruction in time of fire. The hundred houses will be built around a great interior court-yard. In other words, the houses will be built in the form of an immense concrete square.

Vienna, May 16 .- The rerusal of andlords in Vienna to rent flats to ersons with children has become positors. In one of the most desolate spots such an obstacle to families of the on earth, where the heat of the sun working classes that they are sufferis so intense that it dries the blood ing real hardship in the quest for in one's veins, with nothing but suitable living quarters. The condimiles and miles of alkaline deposits tion of affairs has been presented to to feast the eyes on, is to be built a the city council and a proposal made group of homes. The material is to lower the taxes on houses whose now being assembled, and within a owners would permit children to live few weeks work will be started says in them. ## Views of Others

WHAT FREE TOLLS MEAN. Would you like to know how it would work? Then listen to the following:

Two ships, of American make American owned, flying the American flag, and each carrying 5,000

York City at the same moment. One destined for Seattle via the Canal; the other for Valparaiso, Chili. On arriving at the Canal, the ship for Seattle, being coastwise, passes through FREE. The ship for Valparaiso pays exactly \$6,000 tolls.

The latter ship, being engaged in foreign commerce and compelled to compete with all the world, and needing a subsidy if any ship needs a subsidy, is charged tolls; while the domestic ship, engaged in a commerce from which the foreign is excluded, goes scott free. What do you think of that as a Special Privilege-an insane special privilege? And if men say that charging this domestic ship tolls is surrendering to Englandowhy is not charging this foreign ship surrendering to England? If the people of this country don't see this bunco game being worked by those who say we are surrendering to England, then they lack common intelligence. Circle-

100 Acres

improvements. 100 Acres

\$135 per acre; fine land; well improved.

100 Acres Near Salisbury plain, in England, is Fine land, fine improvements, fine location. \$160 per acre.

> 60 Acres Good land, fairly well improved. A bargain at \$125 per acre

50 Acres Fine land, good improvements: worth the money.

140 Acres Fine land, worth the money.

## 300 Acres fine land, at \$110 per

acre. A bargain. 142 Acres

At \$75 per acre; a good stock and grain farm. A splendid investment.

## 155 Acres

Two sets good buildings, good land at \$105 per acre. A dandy for the money.

110 Acres Good building, good land; price \$125 per acre. Will take

\$5,000 in other property. 20 other farms all sizes; nearly all in Clinton county. Also make a specialty of selling and exchanging stocks of merchandise. Call on

## PARKS EXECUTION HFID HOSTILE

Mexican Peace Delegates Merely Want a Brief Respite.

## SPANISH AMBASSADOR TALKS

Prove To Be Mexicans and Are

Washington, May 16. - Postponement of the Niagara Falls Mexican mediation conference from next Monday to the following Wednesday at cans will return to the light. the request of the Huerta delegates changed the plans of the South American mediators and the American commissioners for departure and produced, at the same time, much speculation as to possible significance in the delay.

Later the Spanish ambassador here, who is caring for the interests of Mexico in the United States, authorized the statement that the two-day delay meant merely that the Huerta delegates wanted a brief respite from their long journey, and had no politi-

The Spanish ambassador will give the Mexicans a dinner here tonight, after which they will proceed to N agara Falls. The three South Ameri can diologials and American commissioners will deave Sunday or Monday and all will assemble on Wednesday

There were many developments in the day clearing the horizon for mediation, but one smister aspect developed in the sending of a strong note of protest by the United States government to General Huerta, through the Brazilian minister in Mexico City, declaring the reported execution of Private Parks, an American infantryman, a hostile act in view of the suspension of hostilities at Vera Cruz.

Execution of Parks.

The refusal to divulge information about Parks in answer to repeated requests also was resented by the American government, and, while incident will have t prominent part.

The scars of use are to be expected, for that is what furniture is fortified. for; it is bought with the idea of using it and the more comfortable WI a chair, the more luxurious a couch or seitee, the more knocks they get A house does not look well ordered if these scratches and knocks are not at ended to from time to time. That is where we help you.

States contends he should have been treated as a prisoner of war and not executed as a spy.

The three mediators, through the Reported Execution of Private Parks Lobos Island incident had been Held a Hostile Act in View of the cleared up. They did not say directly Suspension of Hostilities at Vera what word they had received from Cruz-Snipers Held by Funston General Huerta, but they have in-

Announcement was made at the war department that the five alleged South American snipers under arrest in Vera Cruz for firing upon Americans had turned out to be Mexicans, and, like the others arrested at Vera Cruz on this charge, had been discharged. This had threatened for a time to involve the South American governments, but it appears now the arrested men said they were South Americans merely to escape punish-

On the whole, President Wilson and his cabinet took a more hopeful view of the entire Mexican situation than they had in many weeks. They are confident that mediation will ac complish something toward the pa cific settlement of the Mexican problem. The capture of Tampico by the Constitutionalists brought out the fact that at present there is no prohibition against the shipment of arms into that port from the United States or any other country.

for four days the rebel attack on Salcourse of the United States will be, tillo was begun by General Villa's it is practically certain that when the army. Accounts of the fighting have final reckoning is made for offenses been received by rebel authorities in alleged to have been committed by Juarez. According to these reports the Huerta administration, the Parks Villa placed his artillery in position Thursday night and at daybreak Fri-Parks, who, according to General day the rebel batteries commenced Funston, apparently was insane, vol. shelling the federal positions at long untarily rode into the Mexican lines. range. Villa now has his entire command, estimated at 25,000 men, dis posed before Saltillo.

Rebels in Juarez believe Saltille will be in rebel hands within 24 hours. It is claimed that while the federals are making a show of resistance, the greater portion of the federal force is ready to join the rebels and will force the surrender of city. The federals are supposed to have more than 10,000 men in Sal tillo and the city has been well

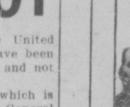

Chicago, May 16. - Mrs. George Post was killed and three persons were injured, one seriously, when an automobile in which they were riding turned turtle near Chicago Heights. Otto Yeager, a teaming contractor and owner of the car, suffered t broken shoulder. The dead woman's husband identified the body at the morgue. He knew nothing about his wife's trip or the men she was with.

With Splendid Reputation of Three Victories in Four Games Played This Season.

ATHLETICS ARE ON EDGE AFTER LAST CLOSE GAME.

For Local Line-up and Players Are Getting Acquainted With the Peculiarities of Each Other and Acting Accordingly.

Another brand new bunch of ball tossers is booked for a game at the

The West Carrolton team with a record of four games played this year three of which were victories, and only one defeat, comes to do battle with the local team on the Washington avenue lot.

The home team is going well right now, and is asking nothing more than an even break of luck from the best teams in the business.

The close game of last Sunday, which our boys lost by the narrowest margin possible, has only served

## BIG AGRICULTURAL LAND

open Twenty Thousand Acres of rich, Southern Georgia Land, which is admirably adapted to the growing of celery, sweet and Irish Potatoes, canteloupes, water melons, corn oats, cotton, hay—in fact all staple crops preass.

Providing you are eligible under the classications prescribed by us you are now offered an excellent opportunity to break away from the drudgery and toil of a suall wage, or working for the benefit of landlords, and go back to a land of plenty to which, if granted, you will hold a warranty deed and abstract.

The best security on earth is the earth itself, and land is the basis of all wealth. Owners of productive lands are benefitting by the increasing high cost of living, while others are suffering from it.

## An Opportunity to Secure Rich Productive Land Without Capital

You will not be required to leave your present surroundings now. All we ask of those to whom we grant tracts is that they plant, or arrange to have planted, a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for grantees, in consideration of 25 per cent of the net profits derived from the sale of the crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just what the yield of their acres amounts to, Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to \$1,268.45, and that one acre of well-cared for paper shell pecars in full bearing should net its owner as high as \$500,00 per year. We are of the opinion that after it is proven by actual results obtained in opera.ing the land that they will need no further urging, and waste no time in locating in this land of plenty. We also require grantees to occupy the land within ten years, or sell it to some one who will occupy it; otherwise it reverts back to the grantor.

The land included in this opening is located directly on

The land included in this opening is located directly on and adjoining the Atlanta, Birmingham and Atlantic Railroad, about twenty-five miles west of Brunswick, a thriving city of fifteen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the year, from April to October, is 77 degrees; the climate is most healthful, delightful and invigorating, and there is an ample rainfall of 51 inches per year.

### Our Aim is For Mutually Beneficial Results

As we are extremely desirous of having settlers locate on As we are extremely desirous of having settlers locate on this property and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta, Birmingham and Atlanta Railroad, and thus facilitate the service, we feel warranted in granting these tracts to those who register with ns We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have "money-making afterward" considerations in this liberal-minded opening similar to those of the Northern Pacine and other railroads when they granted their lands and we expect to benefit thereby as well as the ones who will receive the tracts.

We have also planned to develop what is designed to be We have also planned to develop what is designed to be the best equippe I, most-up-to-date, scientifie, commercial farm and orchard in existence. It will consist of six thousand acres, and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue thereon. While we are arranging to prevent over-registration we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who register in excess of the number of tracts to be granted an interest in this commercial farm and orchard enterprise, in the hope that they may later locate in one of our town sites.

Examination of the land will cheerfully be permitted and the opening will be held at Browntown, Wayne County, Georgia, one of the stations of the A, B & A. Railroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made.

The presence of those registered will not be necessary at Browntown on the opening day, unless they wish to attend for there will be no favoritism shown anyone. It will be conducted by a committee selected for the purpose, and those registered will be notified of what they have been granted as

With the ever increasing population of this country there is no corresponding increase of the area of kand, and naturally as the population increases and seeks the land in pursuit of health, happiness and independence, it will continue to be

The prosperous and contented class in Europe today are the descendants of those who secured land there when it was plentiful while the descendants of those who obtained no land are now the peasants and slaves. You must realize that this may be your last chance to secure land in this country without a large outlay of capital, so it should not be necessary to urge you to act at once by forwarding us the applica, tion for registration attached to this aunouncement.

SOUTHERN GEORGIA RAILROAD LAND DEVELOPMENT BURBAU, COLORADO BUILDING, WASHINGTON D. C.

Southern Ceorgia Railroad-Land Development Bureau, Washington D. C. Registration Department: I hereby make application to register for your Fruit and Agricultural Railroad-Land Opening, and furnish you with the correct answers to the following questions: ......Street or R, F. D. No..... Nationality......Do you now own over ten acres of land in the United States?..... If my application for registration is accepted please send me, without obligation, further and complete information and particulars, including maps of the land, showing its exact locacion on the Atlanta, Birmingham and Atlantic Railroad, its transportation facilities, agricultural, fruit and nut-growing possibilities, etc. Very Truly yours, .. Congress thought that a coin of the same weight and size as the Mexican dollar, with the imprint of the United States, could be used with advantage.

During the five years beginning with 1873, the United States mint produced nearly 36,000,000 of these dollars. Most of them were exported, but enough of them remained in our own country to lead to some confusion by reason of their similarity to the standard silver dollar. In 1887 Congress provided that for six months thereafter all trade dollars presented at the treasury should be exchanged for standard silver dollars. After that time trade dollars were to be worth only their metal value. Nearly 8,000,000 were redeemed, and when the period for redemption came to an end probably less than 1 per cent of the number that had been coined remained in this

The trade dollars show on one side a sitting figure of the Goddess of Liberty, and on the other an eagle value is about the same as that of panion.
